

Can Jill Avoid The Wait?

Jill has too much
rock. Stacks sit
on the sod.

The chest lids
pop up. The
stacks **spoil** the
sod.

Jill joins a long,
long mob. The
wait is too
long, and she
gets mad. I'll rig
a bin myself!

Dr. Can Do
hands Jill a sheet
at the pond.

He points at the
plan. All the bits
must link.

Jill toils and
toils on the bin.

It needs hot
goo, so she
grabs a pail
and runs.

Look at the red dust trails. See that gap? The trail must join up, but a bit is not in it.

Jill fixes the gap.

The bin hums!

She hoists in a
block and it
melts. I did it
myself!

Can Jill Avoid The Wait?

Jill has a yard full of cobblestone, and the villagers' wait line for the disposal bin never seems to move. Determined to fix the problem herself, she grabs a pattern, some redstone, and a plan of her own. Will Jill's homemade machine actually work? Written for Jolly Phonics classrooms (Group 7: oi /oi/), this book practices words like 'toils', 'hoists', 'joins', 'points', 'spoil'.

Phonics Focus: <oi>

hoists, join, joins, points, spoil, toils

Learn to read with confidence

The Bookbot app and its carefully designed decodable books help children practise the sounds and words they are learning, building strong phonics and reading skills one step at a time. In the app, children can listen to stories read aloud, follow highlighted words as they are spoken, and read independently when they are ready. Together, the decodable books and oral reading support help develop accuracy, fluency, confidence and a love of reading. Learn more at www.bookbotkids.com.
