MINECRAFT ECOLOGY

DEEP GREEN TREES

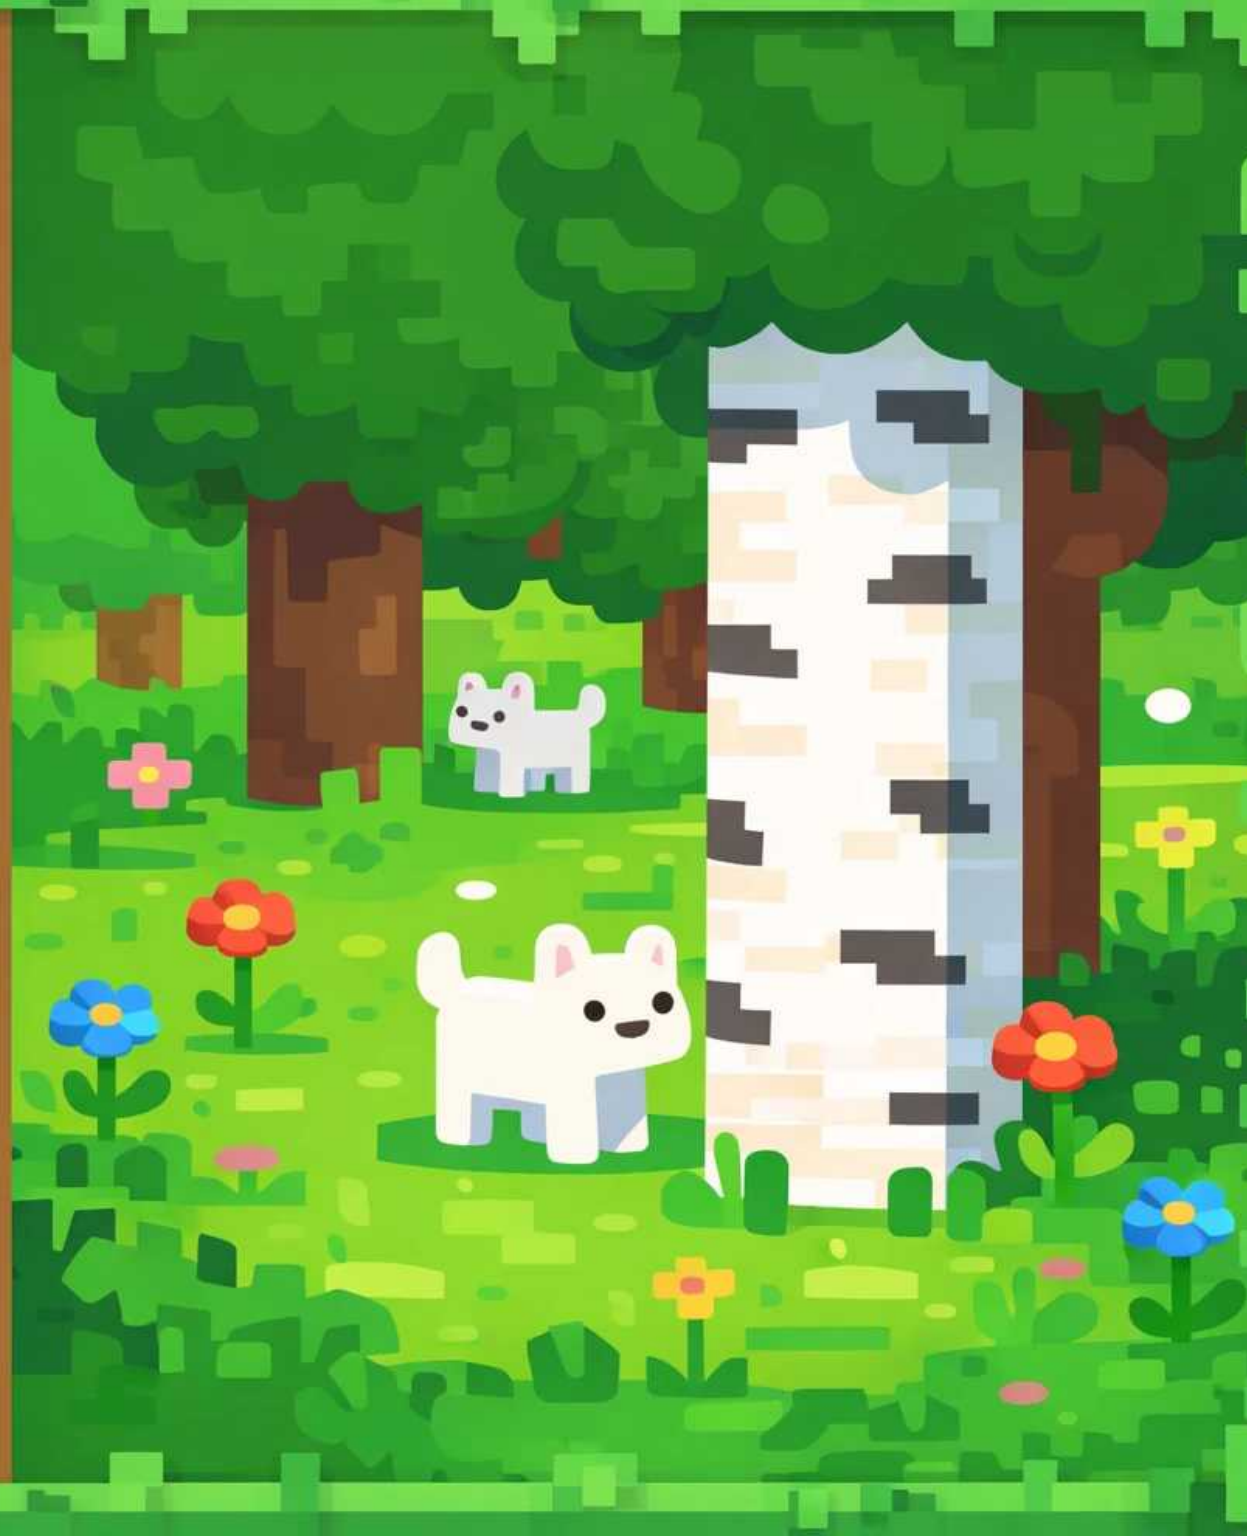
An Unofficial Minecraft Encyclopedia | Minecraft Ecology

Forests are full of **green trees.** You will **see** more **trees** here than in any other biome. The **trees** grow close to each other.

Trees can be cut down for wood. You can craft a lot of things with wood. You will **need** it from the very start.

The **trees** can make it hard to **see** mobs. They may jump out at you.

Some forests are full of flowers and oak **trees.** Some have a lot of birch **trees.**



Some have **trees** only found in that type of forest, like dark oak!

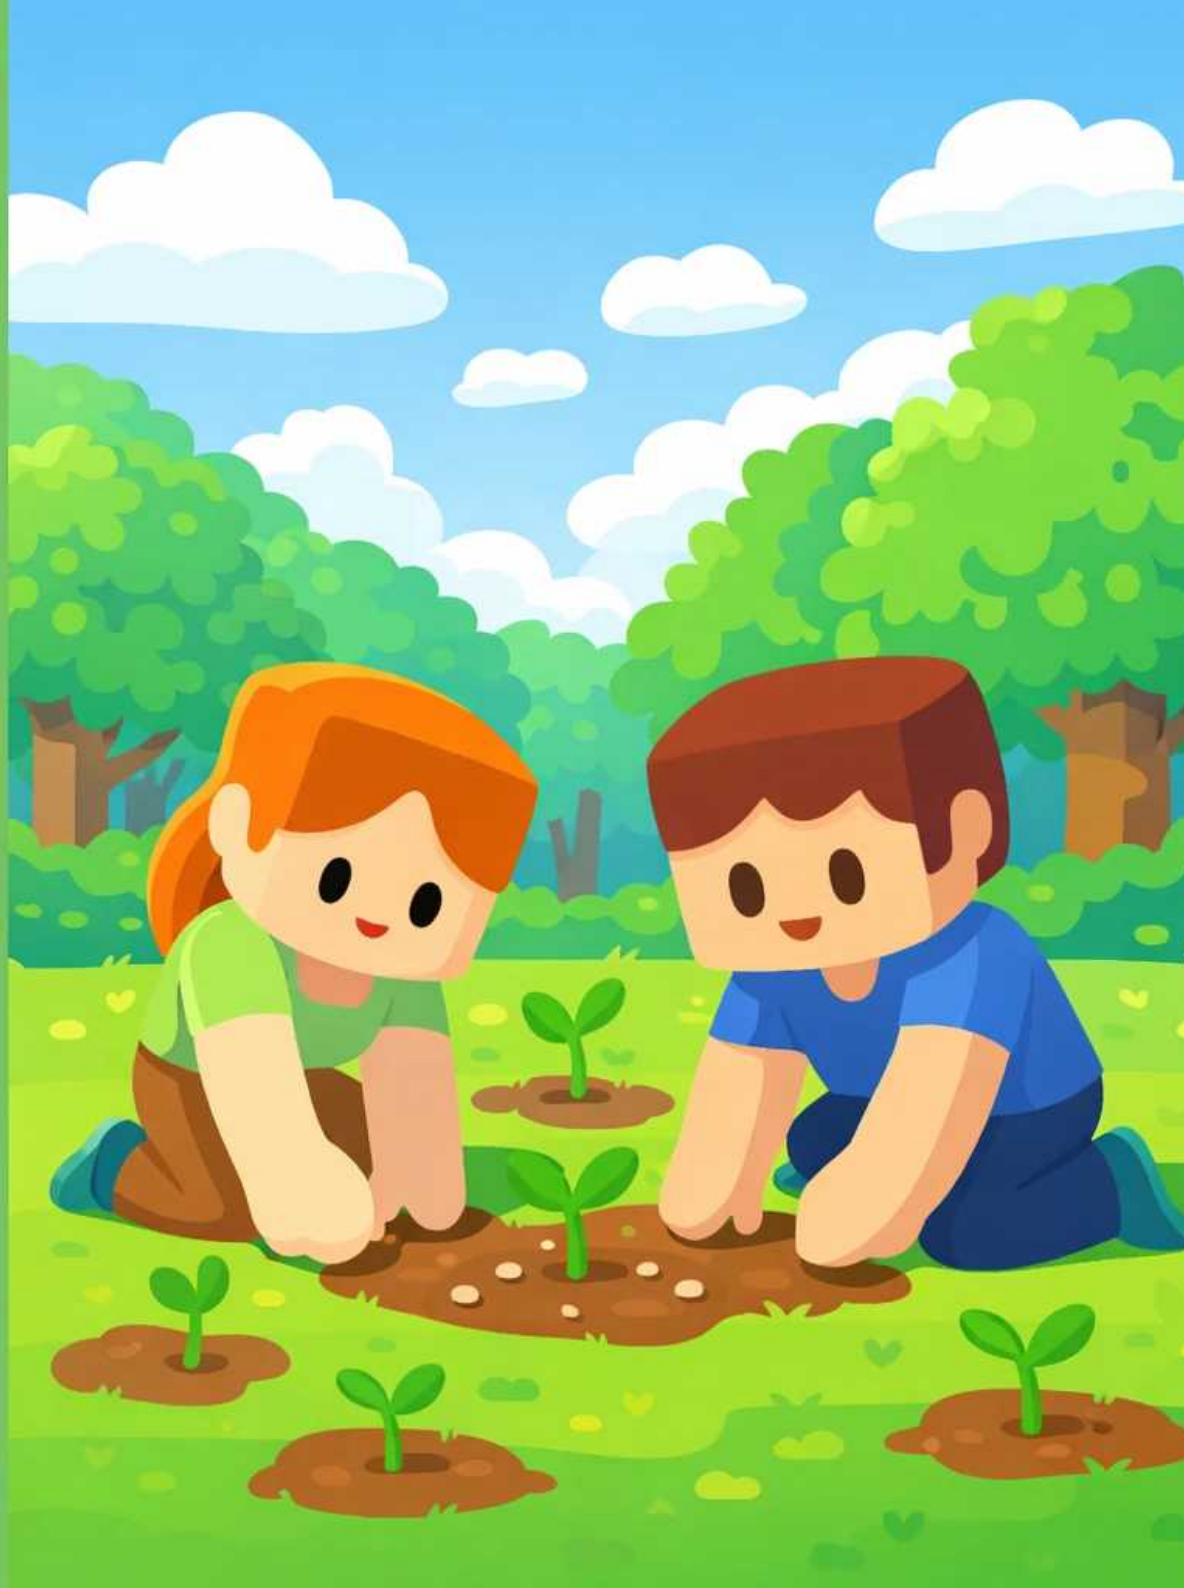
In the dark forest, mobs **creep** out and spawn a lot more.

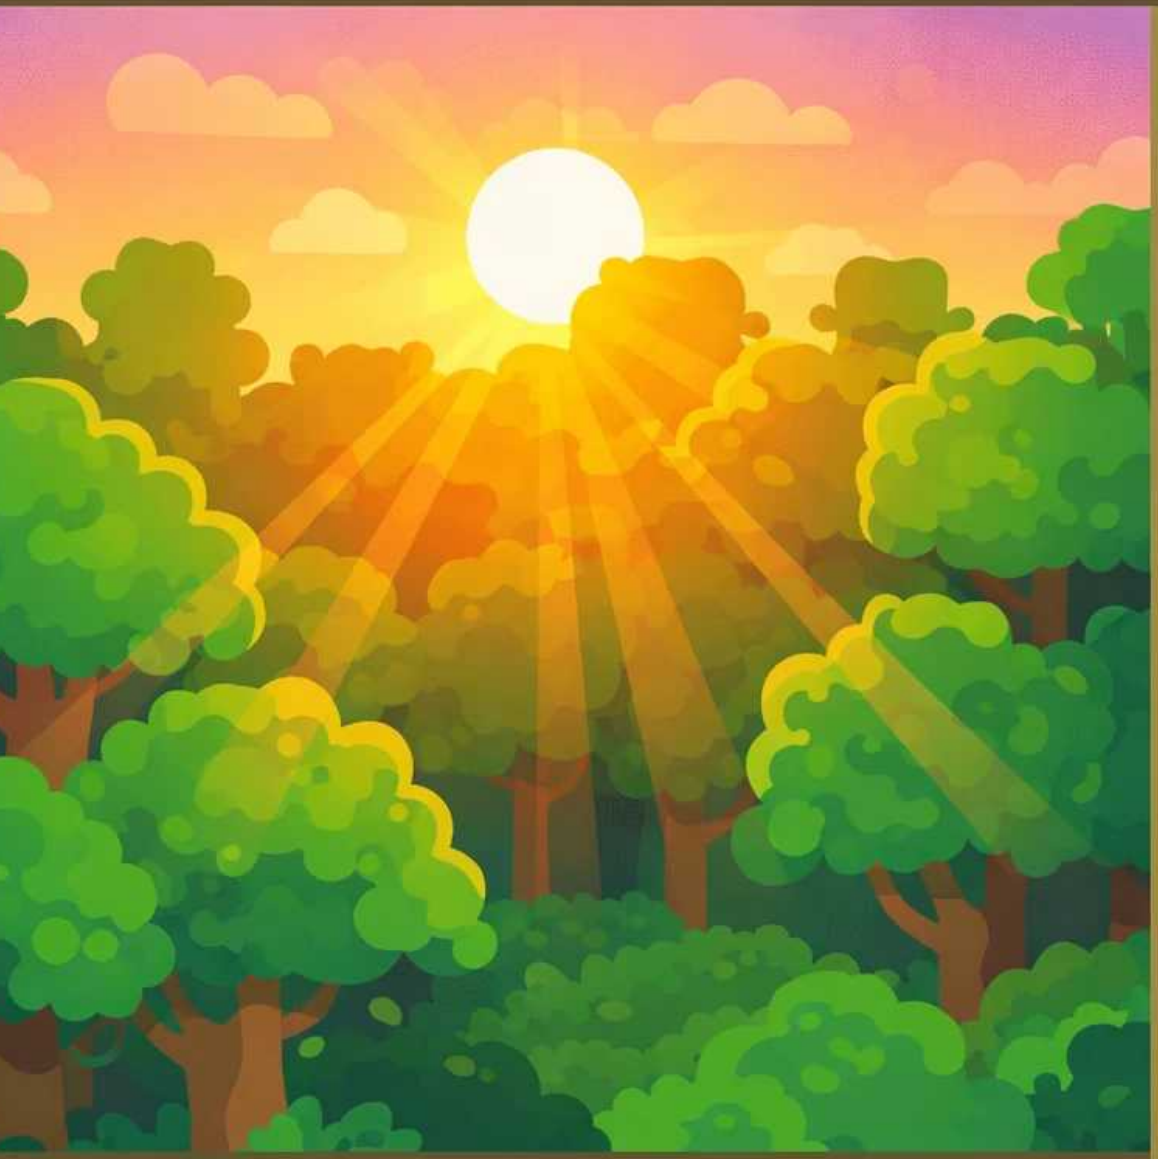
You can get all of the grass **seeds** and flowers that you **need. See** the **seeds** by the **green trees.** It is all **free** in the forest.

In forests in our world, we must not cut down too many **trees.**

If we cut down all of the **trees** to make things, the animals would have no homes.

We can help the forest grow back. We plant **seeds**, and **green trees** grow tall and **free.**





Trees help us to have clean air. We must care for our forests.

EE

Deep Green Trees

Step into the leafy world of Minecraft forests, where towering oaks and birches stretch high above your head! What creeps between the shadowy trunks when the sun goes down? Why do players need trees so badly, and what happens if we chop down too many in the real world? From gathering seeds to spotting mobs hiding in the green, this adventure shows why forests matter everywhere. This decodable reader practices the 'ee' sound in words like 'creep,' 'green,' 'trees,' 'see,' and 'seeds.'

Reading Skills: <ee>

creep, free, green, need, see, seeds, trees

Learn to read with confidence

The Bookbot app and its carefully designed decodable books help children practise the sounds and words they are learning, building strong phonics and reading skills one step at a time. In the app, children can listen to stories read aloud, follow highlighted words as they are spoken, and read independently when they are ready. Together, the decodable books and oral reading support help develop accuracy, fluency, confidence and a love of reading. Learn more at www.bookbotkids.com.
