

 MINECRAFT ECOLOGY 

INTO THE DARK FOREST

AN UNOFFICIAL
MINECRAFT ENCYCLOPEDIA

This is a forest.
Look at all the tall
trees. The shade
makes the forest
dim and dark.
More and more
trees fill the land.

We chop trees to get wood. Look at the stack of blocks and planks.

Wood is for forts and homes. We can craft a lot with wood.

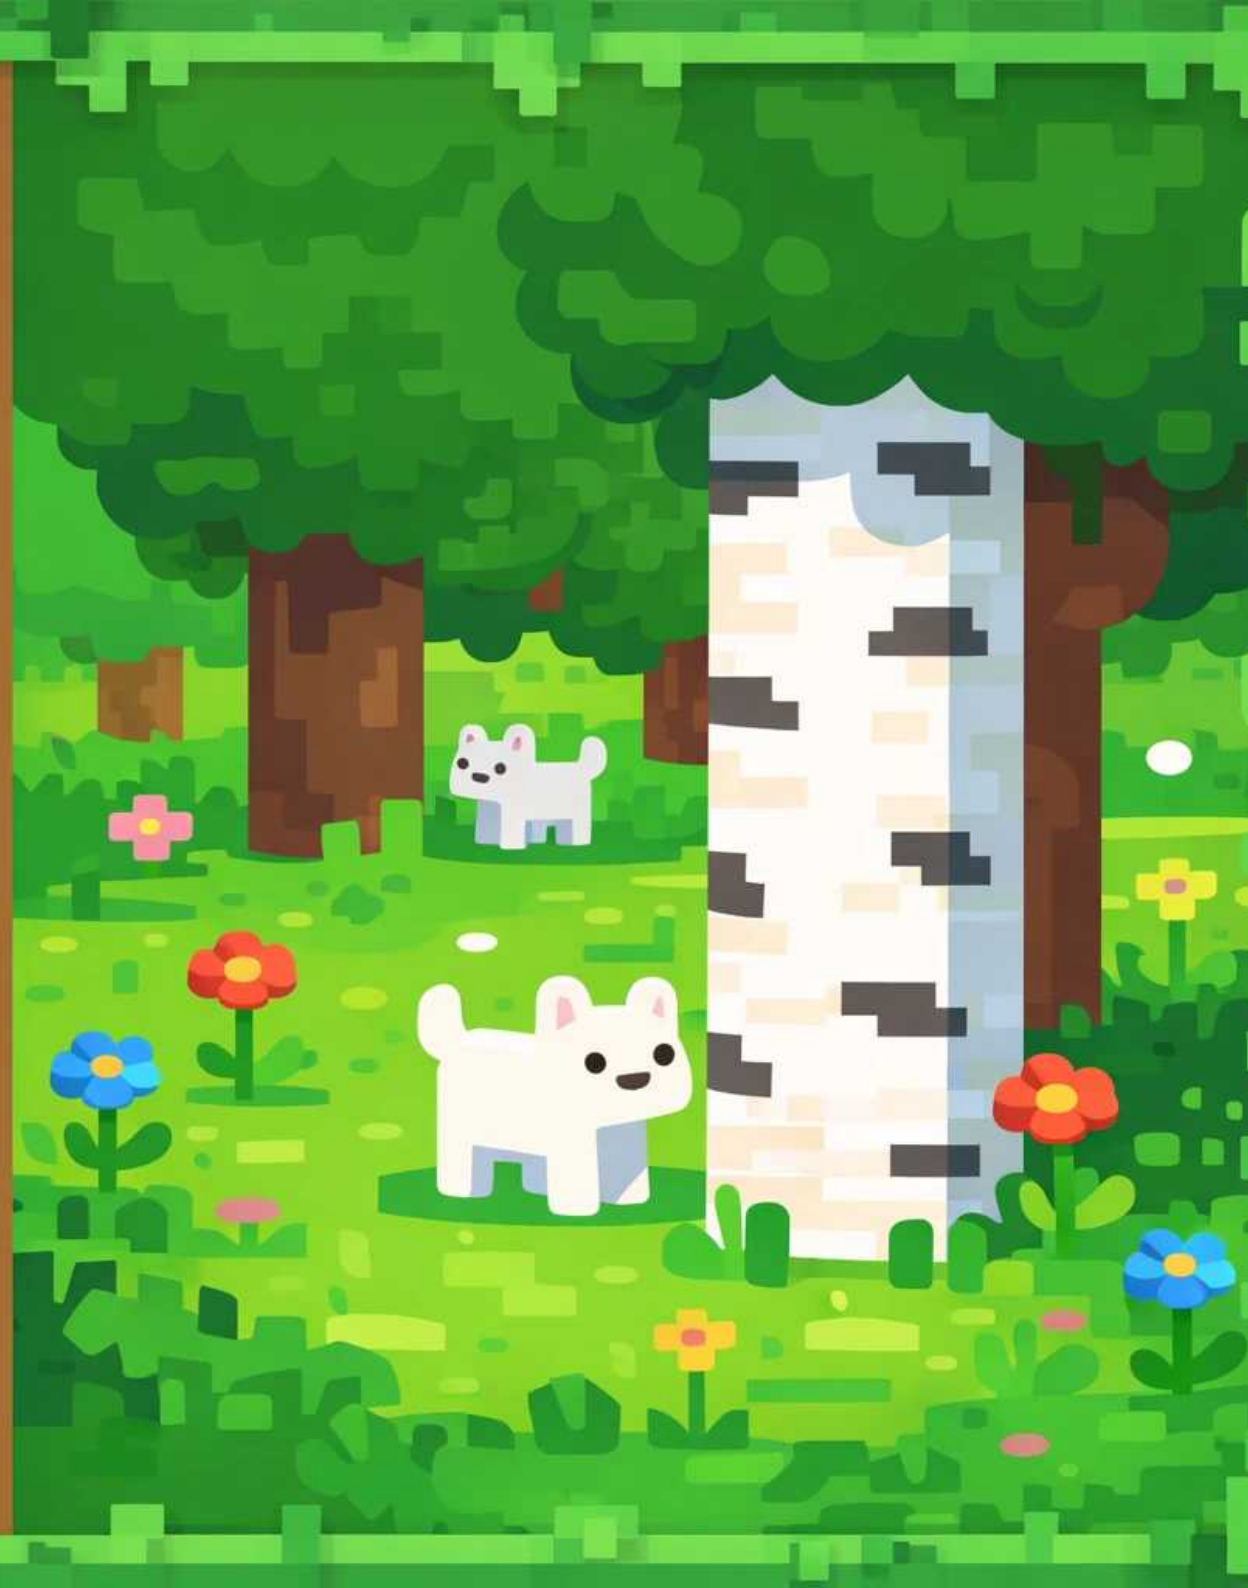

The **forest** can be risky. It is hard to see in the thick shade.

Mobs can hide behind the trunks. Look **before** each step!

There are more
sorts of forests.

This forest has lots
of plants. It has tall
white trunks too.

Two little animals
munch on the grass.

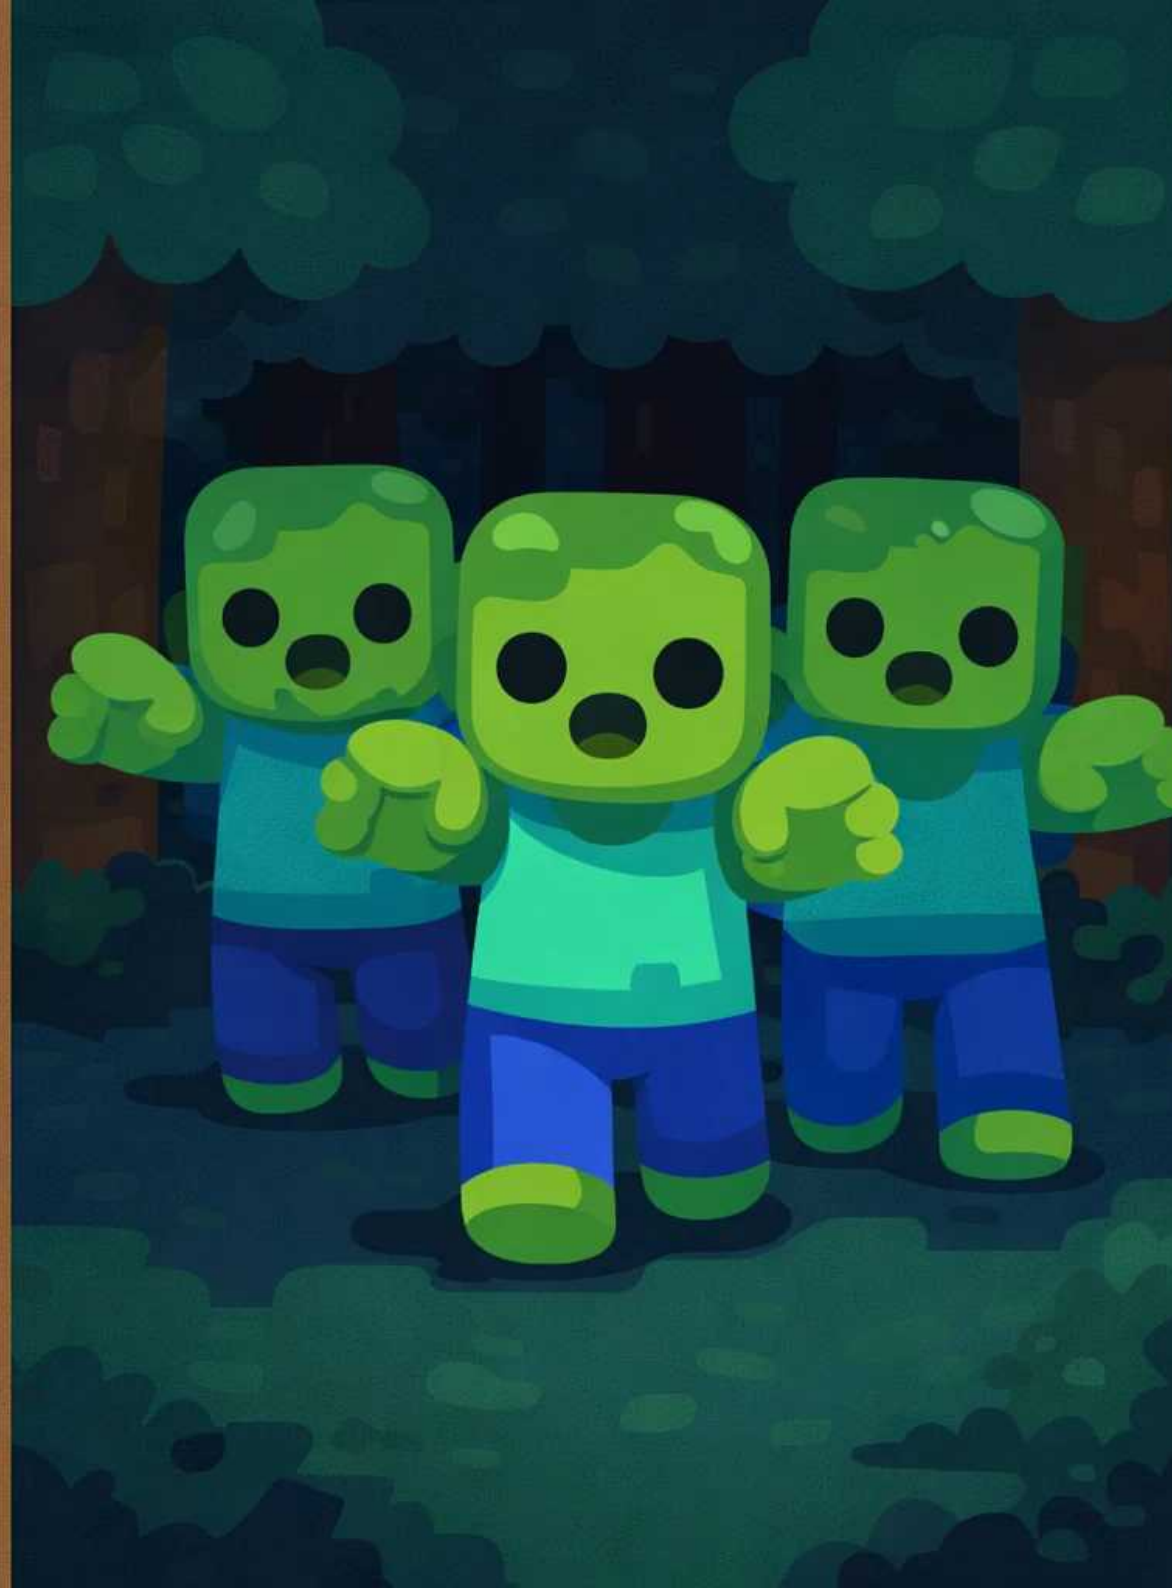

This forest is so dark. The trees are tall and thick, and the canopy blocks the sun.

The dark wood is for rich, dark forts.

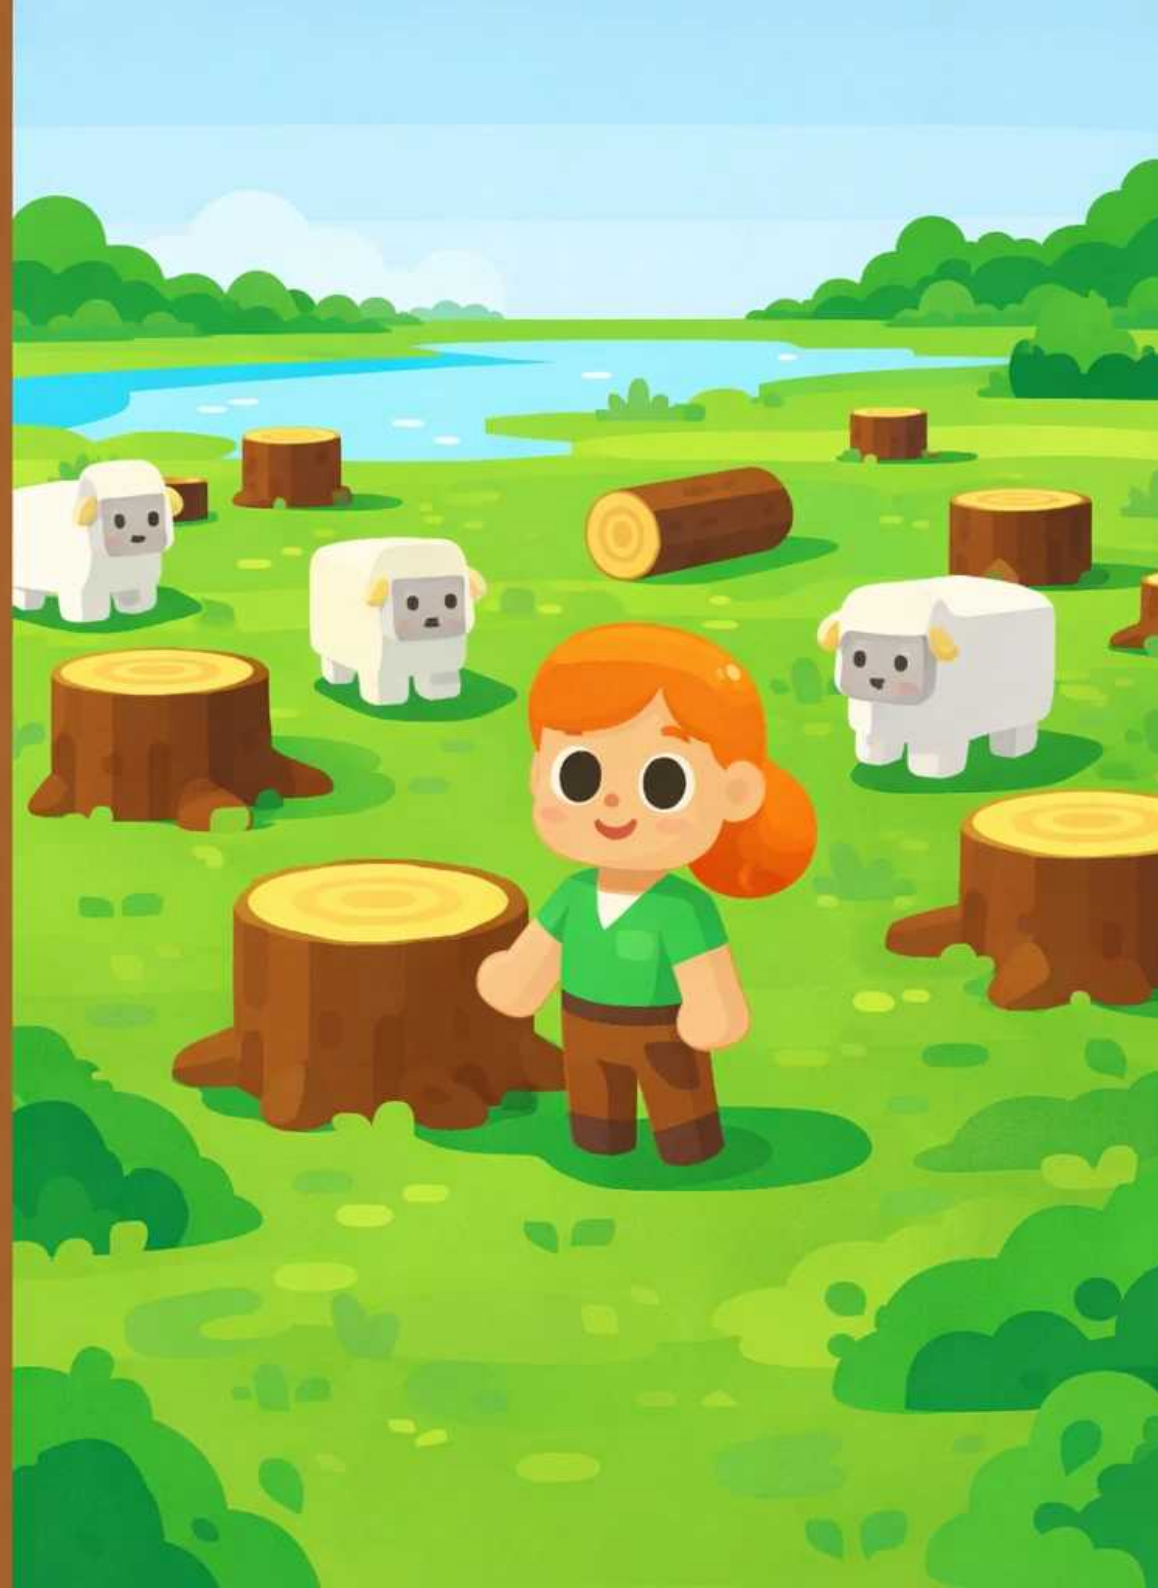

Dark **forests** are
more risky. Mobs
can pop up in
the shade. Look!
The mobs come
from the dark.
Run!

Forests have
more than wood.
Look at the
plants and plant
bits on the grass.
We can collect a
lot in the forest.

Do not chop all the trees at once! Look at all the stumps. The trees are cut, and the land is not rich any **more**. The animals still munch on the grass.

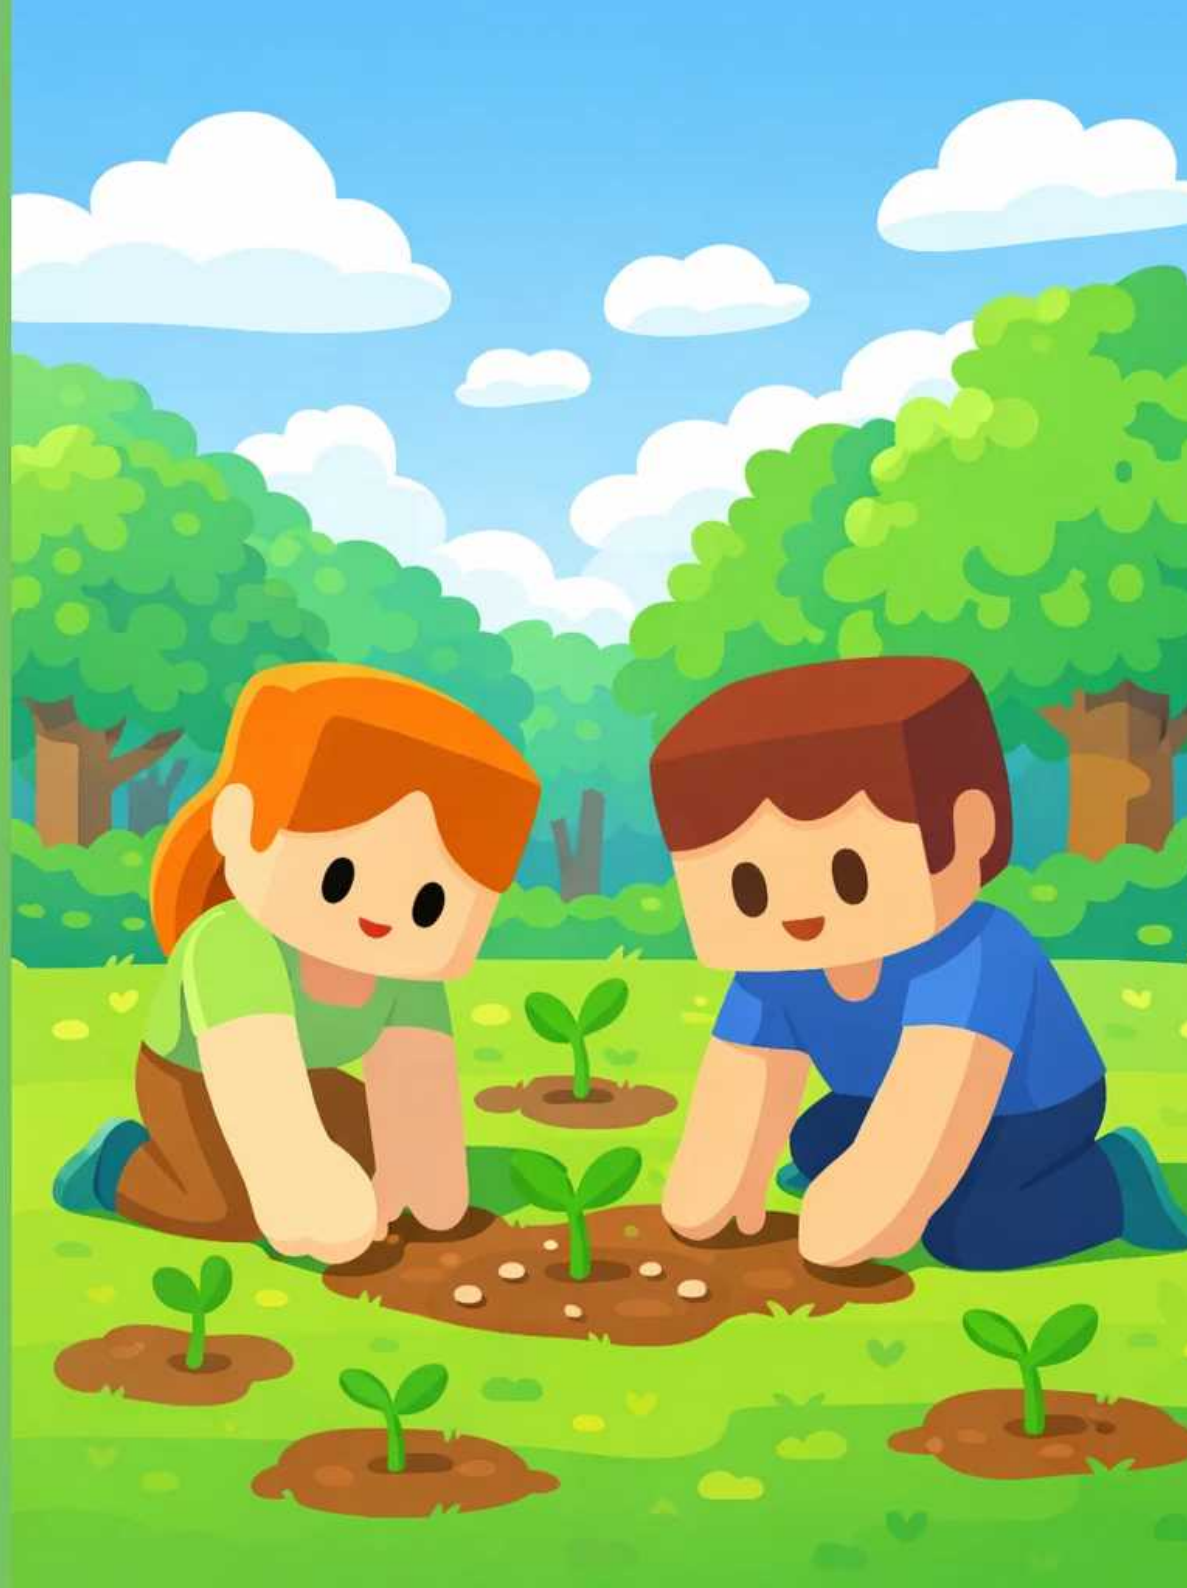

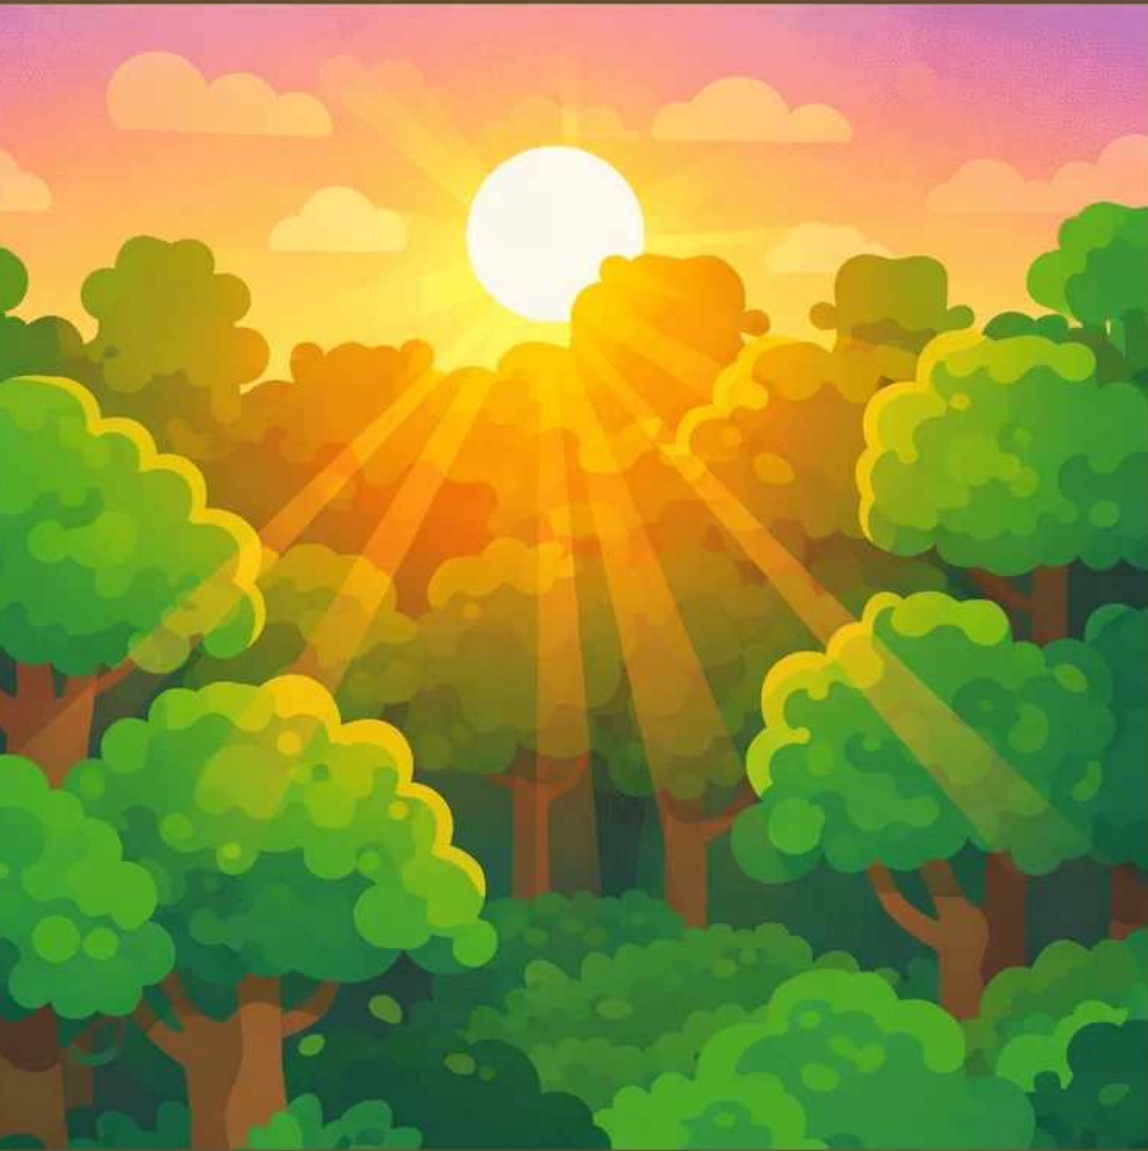

The animals
have lost their
forest home.
The trees are
cut. Where can
they live? They
look up and yelp.

We can restore
the forest! The
kids plant fresh
plants.

The plants will get
big. The forest
will be reborn.

Trees help the planet. **Forests** keep the air fresh. Plant **more** trees, in the game or on the planet. Look at the **forest** in the sunset!

Into the Dark Forest

A girl steps into a dark forest where the trees grow thick and the shade blocks out the light. She chops wood for tools and forts, but every step forward hides a danger behind the trunks. What will she find deeper in the dark forest? Created to align with the UFLI Foundations scope and sequence (Lesson 78: or, ore /or/), this book practices words like 'forest', 'more', 'before', 'restore', 'sorts'.

Phonics Focus: or, ore /or/

before, for, forest, forests, forts, more, or, reborn, restore, sorts

Learn to read with confidence

The Bookbot app and its carefully designed decodable books help children practise the sounds and words they are learning, building strong phonics and reading skills one step at a time. In the app, children can listen to stories read aloud, follow highlighted words as they are spoken, and read independently when they are ready. Together, the decodable books and oral reading support help develop accuracy, fluency, confidence and a love of reading. Learn more at www.bookbotkids.com.
