

Not One Calls Back

An Unofficial Minecraft Book

Player walks up a dim path. He gazes at the huts by the path. All the huts are dim, and no one is there.

'Hello?' calls Player. No one talks back.

A big mob stands on the path. It is still as stone. Vines and mosses are on its legs.

Player gazes up at it. 'I am brave,' he says. But he says it soft.

A cat walks up the path. But it is a ghost cat! Player can see the huts in it! Player **winces** and steps back. 'That is fine,' he says. 'I am still brave.'

Player checks all the huts. He checks the chests and the benches. No one is there. Not one.

The huts are still lit.
Where did they all go?

Rain splashes down
and drenches Player.

A big snake lifts up
by a hut. It gazes
down at him.

'Still brave,' says
Player. But his legs
step back, back, back.

Zombie Villager
rushes at Player on
the path. Player
faces it and grabs
his bow. 'I am
brave,' says Player.
'And this is the
end.'

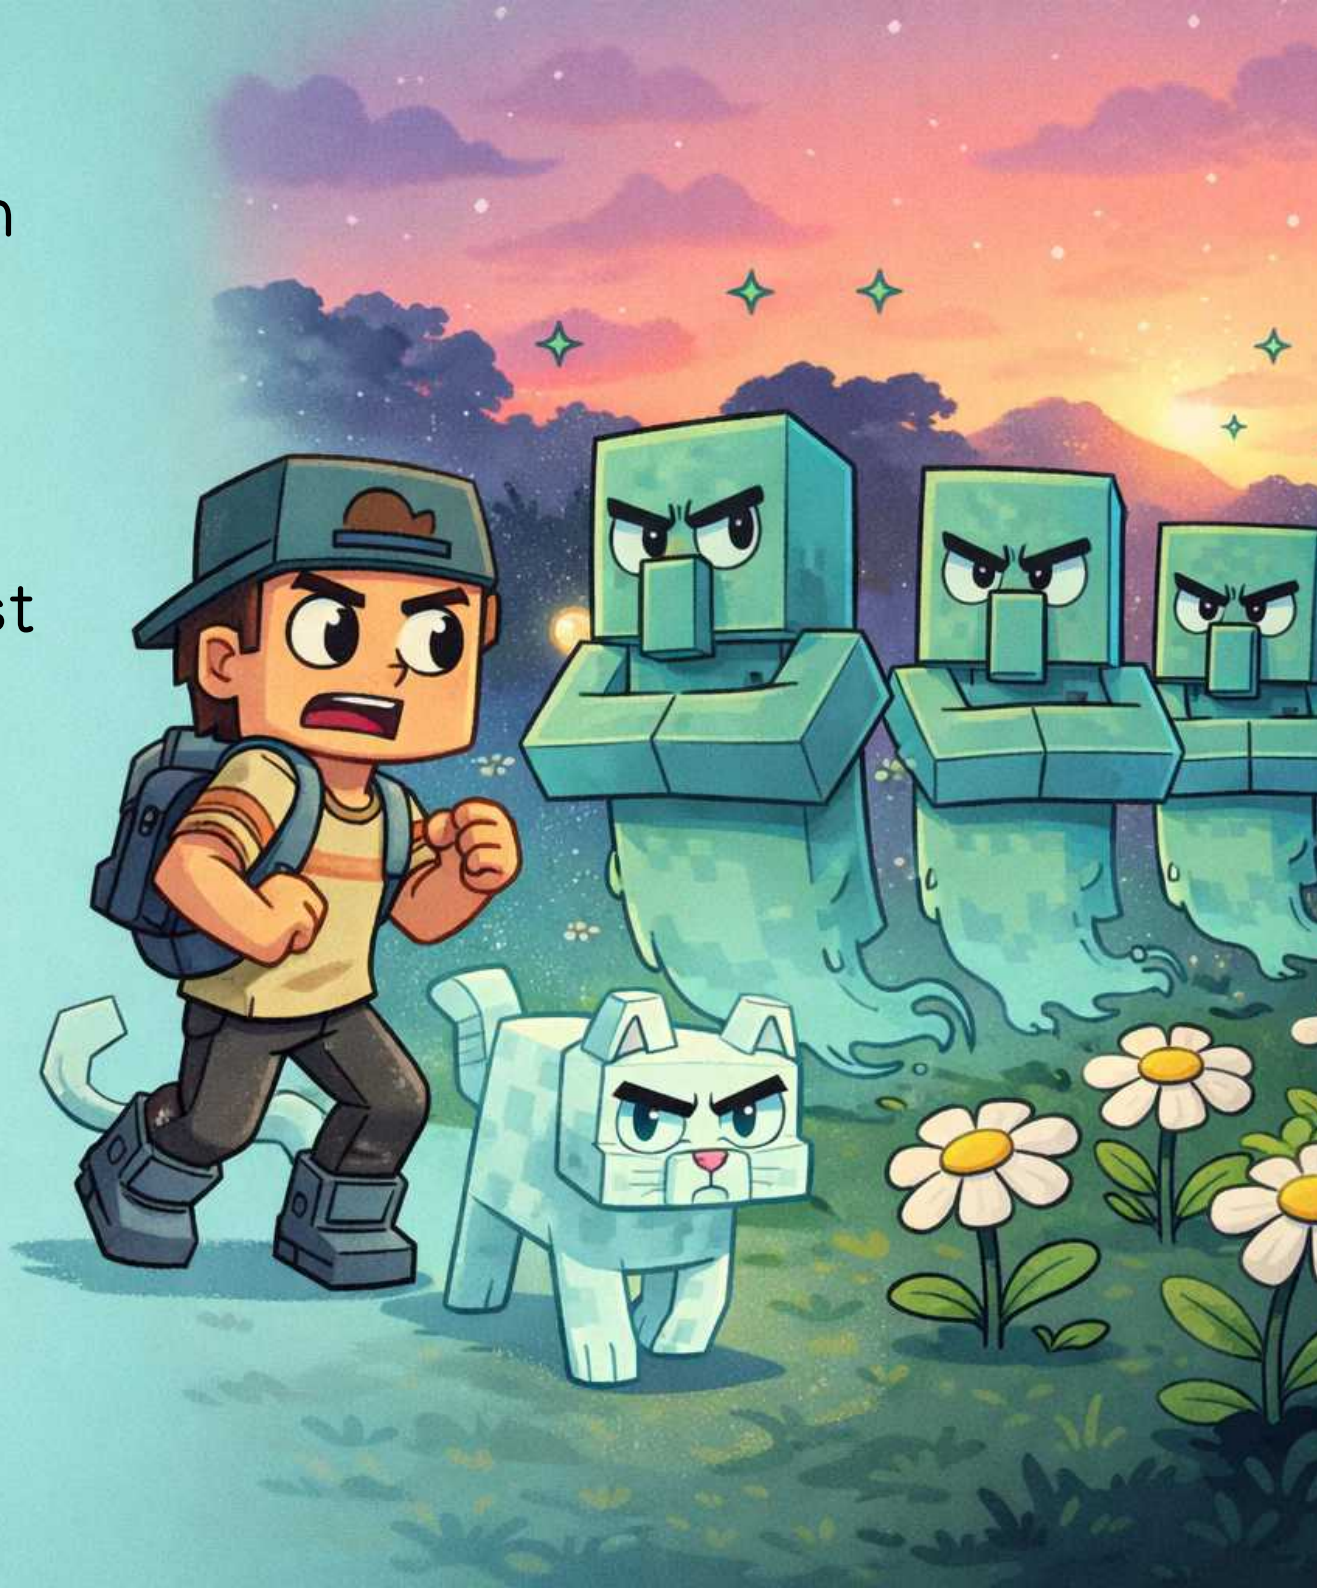

Bang! The shot hits, and Zombie Villager drops flat. But then a ghost lifts up from it! The ghost hisses at Player.

'Oh no!' yells Player.
'It will not stop!'

Ghost Villagers stand in
the white plants.

Masses of them! They
all gaze at Player. Ghost
Cat sits by his legs.

'I am brave,' says
Player. 'And the brave
one runs!' He dashes
off fast.

Not One Calls Back

A player marches into a silent village under the full moon, sure nothing could scare the bravest explorer around. Every hut sits dark and empty, and a see-through cat slips past him like it isn't really there. Where did everyone go? Created to align with the UFLI Foundations scope and sequence (Lesson 63: -es), this book practices words like 'gazes', 'benches', 'winces', 'splashes', 'dashes'.

Phonics Focus: -es

benches, dashes, drenches, faces, gazes, hisses, masses, mosses, rushes, splashes, winces

Learn to read with confidence

The Bookbot app and its carefully designed decodable books help children practise the sounds and words they are learning, building strong phonics and reading skills one step at a time. In the app, children can listen to stories read aloud, follow highlighted words as they are spoken, and read independently when they are ready. Together, the decodable books and oral reading support help develop accuracy, fluency, confidence and a love of reading. Learn more at www.bookbotkids.com.
