**What Hides
in the Brine?!**

The ocean is
big and wide. It
is fun to dive
in it. We like to
swim and gaze
at all of it.

Look at this
bit of land. It
is not big at
all. The **tide**
runs up on the
sand.

This zone is hot
and full of life.

Tropical fish
glide in the
grass. A squid
swims by the
kelp.

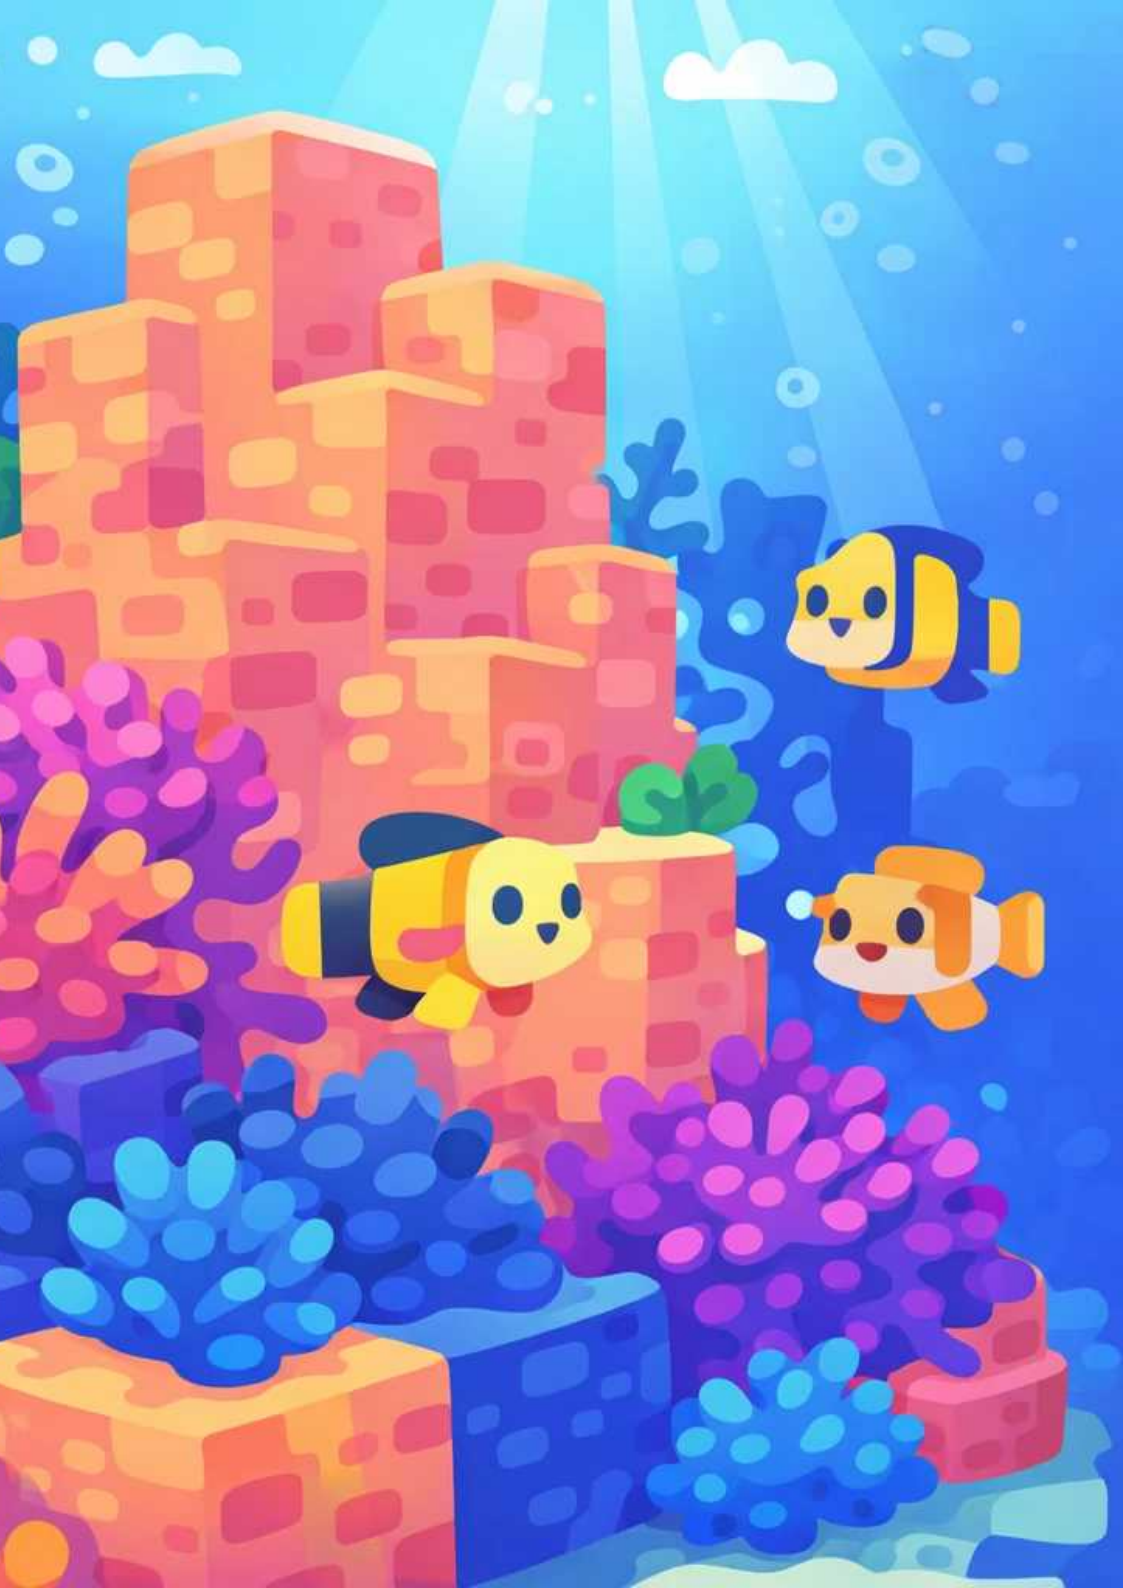

This **zone** is not hot. The bed is rock and mud. But cod and squid still **like** to swim in it.

Big chunks of ice sit on top. This zone is quite extreme! But fish and squid can still live in it.

Look at all
the coral. It
has lots of
shapes. The
fish like to
hide in it.

This mob is not
tame. It can
zap what gets
too **close**. We
swim off quick
to be **safe**!

Turtle takes a
rest on the
sand. A mob
sits by his side.
They like the
sunshine.

Fish, squid, and
Turtle thrive in
the ocean. It is
home to lots of
life. We hope it
is safe.

There is waste
on the sand.
That is not
fine at all. We
can help save
the ocean.

What Hides in the Brine?

The ocean is wide, and full of hidden life waiting below the waves. Warm zones glide with tropical fish, cold zones hide squid in the mud, and coral hides fish in its bright shapes. But not every mob is safe to get close to. Turtle rests on the shore, and waste washes up on the sand. Can the ocean stay a home where every creature can thrive? Created to align with the UFLI Foundations scope and sequence (Lesson 57: VCe Review 1, e_e /ē/), this book practices words like 'dive', 'life', 'hide', 'safe', 'thrive'.

Phonics Focus: VCe Review 1, e_e /ē/

close, dive, extreme, fine, gaze, glide, hide, home, hope, life, like, quite, safe, save, shape, shapes, side, site, sunshine, take, takes, tame, thrive, tide, waste, wide, zone

Learn to read with confidence

The Bookbot app and its carefully designed decodable books help children practise the sounds and words they are learning, building strong phonics and reading skills one step at a time. In the app, children can listen to stories read aloud, follow highlighted words as they are spoken, and read independently when they are ready. Together, the decodable books and oral reading support help develop accuracy, fluency, confidence and a love of reading. Learn more at www.bookbotkids.com.
