

**Where
Can
Sloth Nap?**

Sloth has to nap.

He is in a funk
and can't rest.

Sloth grips
the trunk of
the big plant.
Up, up he can
go.

Sloth hangs
on a branch
and grins. He
thinks this is
the spot.

Chomp!

Giraffe nips at
Sloth. Giraffe
thinks Sloth is
a plant!

Sloth hugs
the trunk
and winks at
a bug. This
spot is best!

Buzz, buzz!

A bug nest
hangs there.

Sloth slinks
off.

Sloth blinks
and looks up.
What is that
on the branch?

Hiss! Snake is
mad at Sloth.
Sloth shrinks
and rushes
up fast.

Sloth is limp
and sad. But
look, a spot!
He thinks he
can nap there.

Haw! Honk, honk!

Haw!

Bird yells
and yells.

Sloth is so
mad.

Sloth is at the
top. He hugs
the trunk and
shuts his lids.
He is snug.

They all have
a bunk on the
big plant. But
where can
Giraffe nap?

Where Can Sloth Nap?

Sloth just wants the biggest, longest, most spectacular nap of his life, and he's found the perfect tree. But every branch he tries turns out to belong to someone else already, from a hungry giraffe to a buzzing surprise. Will sloth ever find a spot to rest? Created to align with the UFLI Foundations scope and sequence (Lesson 52: nk /ŋk/), this book practices words like 'trunk', 'honk', 'blinks', 'funk', 'winks'.

Phonics Focus: nk /ŋk/

blinks, bunk, funk, honk, shrinks, slinks, thinks, trunk, winks

Learn to read with confidence

The Bookbot app and its carefully designed decodable books help children practise the sounds and words they are learning, building strong phonics and reading skills one step at a time. In the app, children can listen to stories read aloud, follow highlighted words as they are spoken, and read independently when they are ready. Together, the decodable books and oral reading support help develop accuracy, fluency, confidence and a love of reading. Learn more at www.bookbotkids.com.
